Shock Absorbers

Why choose KYB shock absorbers?

- ◆ **KYB** is Original Equipment Manufacturer to **1 in 5** of all cars produced in the world.
- ◆ **KYB** is one of the world's largest suppliers of shock absorbers in the world, manufacturing over 1 million shock absorbers every week.
- ◆ **KYB** offers a complete damping solution, with a wide range of shock absorbers, coil springs, suspension mounting kits and protection kits available.

**Original
Equipment
Manufacturer**

Safety: What do shock absorbers do?

- ◆ The shock absorber is the main element of suspension. It is the link between the wheel and chassis.
- ◆ Shock absorbers are critical to safety. With just one worn shock absorber, stopping distances at 30mph/50kph can increase by up to two metres.
- ◆ Shock absorbers keep a vehicle's tyres pushed into firm contact with the road, allowing you to steer and brake safely.

Why is it important to replace shock absorbers?

New KYB shock absorbers:

- ◆ Reduce braking distances.
- ◆ Increase road holding.
- ◆ Maintain comfort.
- ◆ Limit tyre wear.
- ◆ Reduce deterioration of other suspension components.

Shock Absorbers

The Signs of Worn Shock Absorbers

KYB recommends replacing shock absorbers every 80,000 kilometers but also when you notice one of the following symptoms :

Excessive bounce on bad roads

Vehicle nose dives while braking

Steering wheel vibration

Vehicle veers in a side wind

Excessive body roll

Unusual tyre wear

You should always replace shock absorbers in pairs. Replacing just one shock absorber can have adverse effects on steering, ride height and control of the vehicle.

Shock Absorbers

Which KYB product should I use?

KYB has over 4,000 shock absorbers available across several ranges. Each range offers a different type of technology and is designed to help you decide which type of technology is best. Click on each of the logos for more information about the range.

Product	Type			
	44 Series Twin Tube Shock Absorber 	63 Series Twin Tube MacPherson Strut 	66 Series Twin Tube Strut Cartridge 	
	34 Series Twin Tube Shock Absorber 	22/33 Series Twin Tube MacPherson Strut 	36 Series Twin Tube Strut Cartridge 	
	55 Series Mono Tube Shock Absorber 			
	24 Series Mono Tube Shock Absorber 	32 Series Twin Tube MacPherson Strut 	35 Series Twin Tube Shock Absorber 	37 Series Twin Tube Strut Cartridge
	74 Series Twin Tube Shock Absorber 	73 Series Twin Tube MacPherson Strut 	76 Series Twin Tube Strut Cartridge 	

Protection Kits

Protection Kits are a critical element for optimal shock absorbers. As the name suggests, they are designed to protect the shock absorber piston rod from any road debris, therefore increasing the shock absorber lifespan.

Why choose KYB Protection Kits?

- ◆ Protection kits increase the life of the shock absorber by preventing dust and moisture from damaging the piston surface and seal.
- ◆ They also protect the piston rod from damage and corrosion from stones and road pollution.
- ◆ The bump stop limits the suspension travel in the compression phase.

Suspension Mounting Kits

Suspension Mounting Kits act as a vital link between the shock absorber and the vehicle chassis.

Why choose KYB Suspension Mounting Kits?

- ◆ Reduces suspension vibration and noise.
- ◆ Improves steering.
- ◆ Eliminates noises while steering.
- ◆ Keeps the shock absorber positioned correctly for optimal steering geometry.

Coil Springs

Coil springs support a vehicles weight and compress to absorb the impact of any bumps or jolts in the road surface. Coil springs also maintain the correct ride height of the vehicle.

When should coil springs be replaced?

It is recommended that coil springs are checked annually to determine their condition and they should be changed after 80,000km. Worn springs will begin to compromise the safety of the vehicle, contributing to longer braking distances, reduced road holding ability, increased tyre wear and less responsive steering.

Why replace coil springs?

- ◆ Maintain comfort, performance and safety.
- ◆ Correct steering geometry.
- ◆ Correct vehicle ride height.
- ◆ Reduce deterioration of shock absorbers.

Coil springs should **always** be replaced in pairs.

Suspension Visual Check

KYB recommends replacing all suspension components at the same time.

KYB Suspension Solutions

KYB has a number of support tools available, specifically designed to make fitting suspension components easier and quicker.

Support

Fitting Videos

With over 6 million views, **KYB** has created fitting videos for vehicles that are known to be difficult when fitting suspension. These can be found on YouTube: youtube.com/KYBEurope.

Online Catalogue

KYB part numbers are easy to find using our free online catalogue. Enter either the vehicle model, VIN or the registration number and you will be shown the correct **KYB** part number. As of 2021, **KYB** was awarded a Premier Data Supplier status by TecDoc and was the first shock absorber manufacturer to be awarded this status.

QR Codes

Many **KYB** shock absorbers have a label with a spanner icon and QR Code on them - scanning it with your smartphone camera will give access to part specific fitting instructions and videos.

KYB Suspension Solutions App

KYB has a free App specifically designed to help technicians identify and sell replacement parts for vehicles with worn suspension components.

360° Product Images

KYB has the widest range of 360° product images in the European aftermarket. The user can rotate and zoom in on the image, and compare to the unit being replaced. This ability to compare in detail helps to ensure the correct part is being chosen for the job, increasing efficiency and reducing returns. Now also available on TecDoc.

For more information, visit kyb-europe.com/support-zone

KYB Suspension Solutions App

KYB has developed an App, available to download from the App Store or Google Play, to aid technicians with the fitting of suspension components and to assist informing customers of the dangers of driving with worn suspension. All communication sent from the App can be customised with your logo. Each feature is designed to assist at every stage of the job:

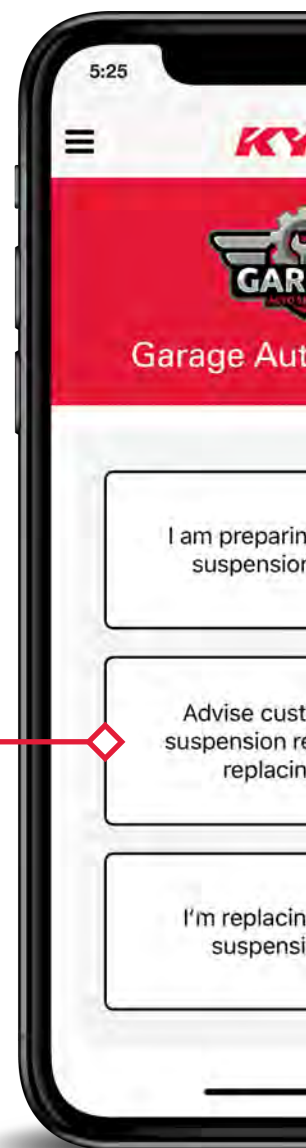

1 Before the job

If a customer needs their suspension replacing, click "advise customer suspension requires replacing"

- ◆ Enter customer's details
- ◆ Select faulty parts and the symptoms.
- ◆ Add an image of the faulty part (optional)
- ◆ Preview the text message and send- these are free and shown to be from the workshop.

The text contains a report. This report, fully branded as the garage, will:

- ◆ Contain all the information inputted by the technician.
- ◆ Show the benefits of replacing suspension
- ◆ A "Call" button- if clicked, they are able to call the workshop directly.

2 During the job

Click "I am preparing for a suspension job".

Enter a registration number, vehicle make or VIN. This will give you access to:

Fitting Videos

Fitting Guides

Part Numbers

There will also be an estimate for the time needed to complete the job, allowing you to quote reliably.

3 After the job

Click "I'm replacing the suspension".

- ◆ Enter customer's details
- ◆ Select faulty parts and the symptoms.
- ◆ Add a before and after image (optional).
- ◆ Preview the text message and send- these are free and shown to be from the workshop.
